

It's been 6 months since we launched our **Powerpack Ambassador Programme** and **we are finally rolling out our first amBUZZador** newsletter! It's a small, yet significant breakthrough as we work towards building a community dedicated to saving lives. You are our pioneers and in this short spurt of time, great work has been done. You have played a part in introducing us to **six** organisations, **10** of you volunteered with us and we received **79 swab kits from you**. It is truly a milestone worth celebrating as we would not have been able to achieve any of this without YOU our ambassadors!

We wanted to take some time to share what has been happening in the ambassador space.

Our ambassador community welcomes Singapore's top women's professional boxer Nurshahidah Roslie

We are excited to welcome Singapore’s first **professional female boxer**, Nurshahidah Roslie as an ambassador! She has built a name for herself in the boxing ring but to her, a legacy is “providing others with a chance at better life, or better yet, providing another with a chance at living.” Shahidah has been actively promoting our cause through her social media and gym and we plan to do a lot more together. Until then, we wish her the very best for her upcoming matches!

Apart from recruiting individual donors and creating awareness, our ambassadors have helped us pave the way into organisations and communities. A special shout out to **Macushla, Delphine and Dave** who went out of their way to organise a sharing session about bone marrow donation to their

colleagues! Dave even invited bone marrow donor, Yen Ping, to share about her donation process during the staff meeting in his company.

Macushla organised a sharing session about blood disease and invited us over!

During our recent roadshow at Wisma Atria, **8 ambassadors** stepped out to lend a helping hand by spreading the message and recruiting bone marrow donors. Approaching members of the public cold is no easy feat yet they persevered through and spread the message. A special mention to Desiree who was so incredibly committed she stayed beyond her initial volunteer duration just to lend a helping hand at the booth!

In short, you guys are **amazing** and there is no way this short edition can cover all the work you are doing so stay tune to a monthly amBUZZador update!
